

School Accountability Report Card Reported for School Year 2008-09 Published During 2009-10

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

This section provides information about the school, its programs and its goals.

School Description:

Welcome to Hornbrook Elementary School. Hornbrook Elementary is a K-8 school that serves approximately 47 students. 91.4% of the population is considered low socioeconomic status. Most of the students are Caucasian with a few Hispanic and American Indian students. The teaching staff is comprised of three full-time teachers, one half-time P.E. teacher, three part-time paraprofessionals, an administrative assistant, a cook/cafeteria manager, bus driver/maintenance person and a part-time administrator. The community is supported with several resorts and retirement centers adjacent to the Klamath River. Most families must commute to employment outside of Hornbrook. Hornbrook Elementary is a basic aid district, drawing its revenue from the tax base of the Irongate/Copco Dam area.

Mission/Vision Statement:

Our goal is to equip students with the necessary skills to prepare them for the rigors of high school, pass the California High School Exit exam, acquire meaningful employment and obtain additional education in pursuit of a career. Our motto is "Working Together, To Build Student Success, In A Caring Place."

Hornbrook Elementary School's vision is to ensure that a partnership is developed between students, parents, staff and community so:

- Students and staff are equipped with the necessary skills to access, process and apply information to problems and decisions.
- Students are taught to be responsible and safe in a nurturing learning environment.
- Students experience success in a world where learning never ends.

Currently we are in the process of implementing a standards based educational system as evidenced by:

This section provides information about the school's comprehensive safety plan.

The School Safety Plan was reviewed on 01/13/09.

The School Safety Plan was discussed with the school faculty on 01/16/09.

It is of supreme importance to Hornbrook Elementary School to provide a safe, secure & harmonious environment for all who attend or visit our facilities. Annually, the Hornbrook Elementary School staff is in-serviced on the components of the School Safety Plan; namely, emergency response map, emergency drills, universal health precautions, analysis of student discipline data and discipline procedures. Certificated staff is trained in CPR and First Aid. Quarterly Safety meetings are held to evaluate current conditions and address safety needs. Hornbrook Elementary is very conscientious in promoting a safe school.

School Facility Conditions and Planned Improvements (School Year 2009-10)

This section provides information about the condition of the school's grounds, buildings, and restrooms based on the most recent data available, and a description of any planned or recently completed facility improvements.

Our School Facility was inspected on 04/24/08 by NCSIG and upgrades/repairs are scheduled to be completed by 08/30/08. These findings were discussed with the faculty on 05/2008.

Hornbrook Elementary provides a well-maintained and safe school facility. The maintenance staff conducts daily and monthly inspections of the school facilities to correct items that do not meet standards. The maintenance staff (of one) routinely cleans and services each classroom and all adjacent offices and buildings on a daily basis. The school grounds, classrooms and restrooms are exceptionally clean with all items in good working order including 100% of all toilets.

Annually, the Board updates the district's five-year deferred maintenance plan to address short and long-term maintenance needs of the school. The district employs a part-time bus driver/maintenance person (.90 FTE) who works during the school day. The position is approximately six hours maintenance and one hour, 20 minutes transportation. The school is approximately 70 years old. A gymnasium was added 33 years ago as well as two additional classrooms. There are six regular classrooms, a library, gymnasium, cafeteria and an office. There are two athletic fields and a well equipped playground that meets safety standards. The library is stocked with books on loan from the County Office of Education's Library and two computers. Three of three regular classrooms have computers with internet access. The office also has two computers; one for the administrative secretary and one for the Superintendent/Principal. The District is currently reassessing its technology needs, including exploring the cost of modernization of the school facilities.

IX. Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and ten through eleven. The CAPA includes ELA, mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment that is based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2008 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf>. *Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.*

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

| API Rank | 2006 | 2007 | 2008 |
|-----------------|------|------|------|
| Statewide | 1* | 1* | 2* |

Academic Performance Index Growth by Student Group – Three-Year Comparison

This table displays, by student group, the actual API changes in points added or lost for the past three years, and the most recent API score. *Note: "N/A" means that the student group is not numerically significant.*

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Adequate Yearly Progress Overall and by Criteria (School Year 2008-09)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

| AYP Criteria | School | District |
|---|--------|----------|
| Overall | Yes | Yes |

Federal Intervention Program (School Year 2009-10)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

XI. Instructional Planning and Scheduling

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

XII. National Assessment of Educational Progress

National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., basic, proficient, and advanced) and the participation of students with disabilities and English language learners is reported based on three levels (identified, excluded, and assessed). Detailed information regarding the NAEP results for each grade, performance level, and participation rate can be found on the [National Assessment of Educational Progress](#) Web page (Outside Source).

Note: Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. The NAEP reflects state test results and is not reflective of either the LEA or the individual school. Comparisons of student performance on the NAEP and student performance on the Standardized Testing and Reporting (STAR) Program assessments cannot be made without an understanding of the key differences between the two assessment programs. For example, the NAEP only assesses grades four, eight and twelve and for long-term trends assesses grades nine, thirteen, and seventeen. Additionally, the NAEP only provides state test results for grades four and eight. The California Standards Tests (CSTs) are based on a different set of standards than the NAEP assessments. For example, the NAEP is not aligned with California academic content and achievement standards and, therefore, does not necessarily reflect the curriculum and instruction to which students are exposed in the classroom. The NAEP assesses reading and writing separately, while the CSTs assess English-language arts (ELA), encompassing reading as well as writing conventions, spelling, and grammar. Scores on the CSTs and other assessments are not directly comparable to those on NAEP. The averages and percentages presented are estimates based on samples of students rather than on entire populations. Finally, the questions students respond to are only a sample of the knowledge and skills covered by the NAEP frameworks. Information on the differences between NAEP and CST can be found on the CDE [National Assessment of Educational Progress \(NAEP\)](#) Web page.
